

# PROFESSIONAL CONSULTING SERVICES

GLOBAL REACH.  
GLOBAL SERVICES.

## CONSULT THE BEST

At Peli BioThermal, we know temperature controlled packaging.

We also know there is a depth of choice in thermally controlled packaging. **To help simplify, our experienced consultants will not only listen to your needs and assist with the right product choices, they will also draw from the very best of our teams in technical support, engineering, asset management and manufacturing expertise in our expanding service centers around the globe.**

With our team, we bring experience, real world data, knowledge of thermodynamics and expertise in track/trace logistics to you. Consulting services through Pelican BioThermal begins with a preliminary analysis to survey the situation, listen to your needs and develop a plan of optimal solutions for your technical and commercial objectives.

## LET'S FIND YOUR COLD CHAIN SOLUTIONS

### Our Service Consultants will:

- **Identify** necessary operational & logistics support
  - Transit medium
  - Duration required
  - Threshold temperature
  - Ambient temperature ranges
  - Product stability
- **Build** conditioning plans
- **Develop** protocol based on testing
- **Advance** pack out lane strategies
- **Implement** a refurbishment process
- **Manage** all aspects of deployment
